

# Preschool Family Engagement Support

*To support CCSD's Pre-K educators, FACES provides the following parent and child interactive workshops*

- FACES provides:**
- Qualified Presenters
  - Promotional Flyers
  - Spanish Interpretation
  - Handouts & Materials

University of Family Learning Workshop (1 hour)	Course Description
<p><b>Start with a Book</b></p>	<p>Our FACES staff will start with a book for an exciting read aloud, followed by hands-on activities and real-world explorations that stretch the imagination, build problem-solving skills, and help strengthen a child's vocabulary and knowledge of the world. It is designed to build on what young children (ages 3-5) already like — dinosaurs, building, animals, sports, superheroes and music — so that parents, can have fun and interact meaningfully with children while helping to strengthen their reading skills.</p>
<p><b>Transitions in Education: Ready for Kindergarten</b></p>	<p>With proper preparation, the transition to Kindergarten can be a positive experience. This workshop is designed to provide specific strategies and skill sets that parents and students can utilize in order to minimize anxieties and promote successful transition into Kindergarten</p>
<p><b>Creating a Home Library</b></p>	<p>Starting a home library for your child shows him/her how important books are. Having books of his/her own in a special place boosts the chance that your child will want to read even more. Here are some ideas and resources for creating your own home library.</p>
<p><b>Dots! Dots! Dots! Instantly Recognizing Small Quantities without Counting</b></p>	<p>This workshop features fast and easy, yet powerful, routines and games for building an understanding of numbers through 20. The key to these activities is having children not just tell what number they see, but also to explain how they see the number. This foundational concept is critical for achievement in mathematics.</p>

A 1-minute preview of the workshops are available
