

Clark County School District
Fifth Grade Suggested 100 High-Frequency Words

This document was printed from Document View in the CCSD Curriculum Engine and is intended to support the curriculum of the Clark County School District. Only electronic versions are controlled.

The intent of this recommended high-frequency word list is to provide a grade-level appropriate resource for teachers. This list was developed using Fry's high-frequency word list, which identifies the most common English words in order of frequency. The word list below is not meant to be all inclusive, but rather serve as a guide for instructional planning to provide consistency in the Clark County School District. When students have mastered the list, teachers need to move on to the next set of high frequency words.

accept	clothes	grass	perhaps	store
according	conversation	heart	picked	strength
afraid	describe	held	prefer	subject
already	developed	instrument	probably	suddenly
although	differ	interest	purpose	suggest
anything	different	kept	raised	surprise
